

Touchscreen Calibration

NOTE: Calibrate the touchscreen by following the diagnostic scan tool prompts, or the steps below.

1. Make sure the vehicle battery is fully charged in order to avoid an inoperative **FDIM** touchscreen.
2. Press the **FCIM** audio power button to turn the audio system on.
3. Operate the audio system in **AM/FM** mode.
4. Press and hold the **EJECT** button, and within 1 second, press and hold the **SEEK UP** button until the speaker walk-around test begins.
5. Press and hold the **SEEK DOWN** button to enter the touchscreen calibration.
6. Touch and hold the touch points as they appear on the **FDIM** (a stylus is not required).
7. When the “New calibration settings have been measured. Press the Enter key to accept the new settings.” message is displayed on the **FDIM**, touch anywhere on the touchscreen to accept the new settings.
8. Clear all **CMDTCs**.
