

Frame Drilling

 [Ford Ecat Electronic Parts Catalog](#)

1. If a hole must be drilled in the frame, make sure the hole meets the following requirements:

- The hole is at least the specified distance from the edge of the nearest hole.
- The edge of the drilled hole is at least the specified distance from the edge of the flange.
- The hole is at least the specified distance above the frame centerline.
- The drilled hole is at least the specified distance from any other existing bracket or component of the frame.
